25X9

3. A total of [redacted] positions, either filled or obligated, applies against the quota of [redacted]. The vacant position of DD/A must be reserved within the quota. Another position which should also be reserved is that of Chief, Management Improvement Staff. There are two effective supergrade spaces which may be filled, therefore. It is believed that the Comptroller's Office should be permitted to fill one of these. The Security Office has three supergrades and the Logistics Office has one supergrade and two pending. On a comparable basis, the Comptroller's Office should have three supergrades. There are probably three persons who would be given consideration by Mr. Saunders for promotion to the supergrade classification. These are:

25X1A

[redacted] Chief of Budget Division

[redacted] Chief of the Technical Accounting
[redacted] Division

[redacted] Chief of the Finance Division

If you agree that the Comptroller should be allowed an additional supergrade space, I believe you would wish to discuss with him the particular individual to be recommended. Parenthetically, I would like to remind you that Mr. Saunders is himself classified at GS-17, while the Director of Security and the Chief, Logistics Office, both hold GS-18 classifications.

4. Assuming that you are in agreement that an additional supergrade should be allotted to the Comptroller's Office, there would be one unallotted supergrade space within the DD/A ceiling. I do not have any recommendations to make with respect to its use. You might wish to hold one such space in reserve.
